

MOYSA (*Checks payable to NMCS)
 Missaukee-Osceola Youth Soccer Association
 128 Martin Street
 McBain, MI 49657

Player's First Name: _____ Last Name: _____ M.I.: _____

Mailing Address: _____ City: _____ Zip: _____

Primary Ph.: _____ Secondary Ph.: _____ Email: _____

Birth Date: _____ Boy or Girl Circle one Grade Entering: _____ Age on August 1, 2018: _____

Father/Guardian: _____ Mother/Guardian: _____

Last Season Team/Coach: _____ **Shirt Size: Youth Sizes: S M L XL**

School: _____ **Adult Sizes: S M L XL**

Player Registration Fees – **checks can be made payable to NMCS with MOYSA in the subject line

- > \$30.00 – if received in May
- > \$35.00 – if received in June
- > \$40.00 – if received in July
- > \$45.00 – if received in August ** (We will only accept registrations in August if there is availability on teams)

Please Note: If you are willing to coach a team, one of your children can play for FREE!

****Cancellation Policy - A cancellation request must be made by letter or e-mail. Refund requests must be received no later than 7/15/2018 for a full refund. Requests received after 7/15/2018 will receive a refund minus a \$15.00 cancellation fee. Requests received after 8/1/2018 will not receive a refund.**

Approval of Parents or Guardians:

I/We, the parent(s) or guardian(s) of the above applicant, do hereby give my/our consent for the above named student to participate in the MOYSA Program under the above conditions. I/We will not hold MOYSA/NMCS, its sponsors, supporters, officers, coaches, teams, or anyone connected with the activity, responsible for any claim, including, but not limited, to injury, which the above applicant may incur while participating in this program. I have received the Rules and Responsibilities for Players, Parents, and Coaches and agree to abide by them as a condition for registering my child.

I hereby grant MOYSA permission to use photographic images of me and/or my child(ren), in whole or in part, in promotional materials such as brochures and flyers and including the internet. PLEASE NOTE names will not be published with pictures on the internet. I hereby waive the right to inspect or approve the finished product or materials. I hereby release MOYSA and their representatives from any liability for any violation of any personal or proprietary right I may have in connection with the use of these images. I/we acknowledge that I/we have reviewed the concussion educational information that meets Michigan Department of Health and Human Services requirements. (See second page).

 Parent or Guardian's Signature

 Parent/Guardian Name- Printed

Note:
 MOYSA understands the need for some players to be on the same team for carpooling/sibling reasons. It is our desire for teams to be evenly sized and appropriately skilled for maximum sportsmanship and competition. Therefore, requesting special team placement must be approved by MOYSA. The safety of the child for the level he/she plays at will be our 1st priority.
 You must sign below if your request will move your child to the next age level. Divisions by age: 6/7 8/9 10/11

UNDERSTANDING CONCUSSION

Some Common Symptoms

Headache	Balance Problems	Sensitive to Noise	Poor Concentration	Not "Feeling Right"
Pressure in the Head	Double Vision	Sluggishness	Memory Problems	Feeling Irritable
Nausea/Vomiting	Blurry Vision	Haziness	Confusion	Slow Reaction Time
Dizziness	Sensitive to Light	Fogginess	"Feeling Down"	Sleep Problems
		Grogginess		

WHAT IS A CONCUSSION?

A **concussion is a type of traumatic brain injury** that changes the way the brain normally works. A concussion is caused by a fall, bump, blow, or jolt to the head or body that causes the head and brain to move quickly back and forth. A concussion can be caused by a shaking, spinning or a sudden stopping and starting of the head. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious. A concussion can happen even if you haven't been knocked out.

You can't see a concussion. Signs and symptoms of concussions can show up right after the injury or may not appear or be noticed until days or weeks after the injury. If the student reports any symptoms of a concussion, or if you notice symptoms yourself, seek medical attention right away. A student who may have had a concussion should not return to play on the day of the injury and until a health care professional says they are okay to return to play.

IF YOU SUSPECT A CONCUSSION:

- SEEK MEDICAL ATTENTION RIGHT AWAY** – A health care professional will be able to decide how serious the concussion is and when it is safe for the student to return to regular activities, including sports. Don't hide it, report it. Ignoring symptoms and trying to "tough it out" often makes it worse.
- KEEP YOUR STUDENT OUT OF PLAY** – Concussions take time to heal. Don't let the student return to play the day of injury and until a health care professional says it's okay. A student who returns to play too soon, while the brain is still healing, risks a greater chance of having a second concussion. Young children and teens are more likely to get a concussion and take longer to recover than adults. Repeat or second concussions increase the time it takes to recover and can be very serious. They can cause permanent brain damage, affecting the student for a lifetime. They can be fatal. It is better to miss one game than the whole season.
- TELL THE SCHOOL ABOUT ANY PREVIOUS CONCUSSION** – Schools should know if a student had a previous concussion. A student's school may not know about a concussion received in another sport or activity unless you notify them.

SIGNS OBSERVED BY PARENTS:

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Can't recall events prior to or after a hit or fall
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior, or personality changes

CONCUSSION DANGER SIGNS:

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. A student should receive immediate medical attention if after a bump, blow, or jolt to the head or body s/he exhibits any of the following danger signs:

- One pupil larger than the other
- Is drowsy or cannot be awakened
- A headache that gets worse
- Weakness, numbness, or decreased coordination
- Repeated vomiting or nausea
- Slurred speech
- Convulsions or seizures
- Cannot recognize people/places
- Becomes increasingly confused, restless or agitated
- Has unusual behavior
- Loses consciousness (even a brief loss of consciousness should be taken seriously.)

HOW TO RESPOND TO A REPORT OF A CONCUSSION:

If a student reports one or more symptoms of a concussion after a bump, blow, or jolt to the head or body, s/he should be kept out of athletic play the day of the injury. The student should only return to play with permission from a health care professional experienced in evaluating for concussion. During recovery, rest is key. Exercising or activities that involve a lot of concentration (such as studying, working on the computer, or playing video games) may cause concussion symptoms to reappear or get worse. Students who return to school after a concussion may need to spend fewer hours at school, take rests breaks, be given extra help and time, spend less time reading, writing or on a computer. After a concussion, returning to sports and school is a gradual process that should be monitored by a health care professional.

Remember: Concussion affects people differently. While most students with a concussion recover quickly and fully, some will have symptoms that last for days, or even weeks. A more serious concussion can last for months or longer.
